Missiles and Rockets

Editorial Index

January-June, 1965

- A -

ADVANCED SURFACE MISSILE SYSTEM (ASMS)
Boeing Submits ASMS Bid, 3/8/65, p. 10.
Navy Looks at ASMS, 3/15/65, p. 7.
ASMS Snarled by DOD Objections, 4/26/65, p. 7.
ASMS Is In Trouble, 6/14/65, p. 12.
AEROBEE 350
Aerobee 350 Fired, 6/28/65, p. 10.
AEROSPACE CORPORATION
Aerospace Corp. Hearings Due, 3/22/65, p. 13.
Aerospace Corp. Probe, 4/5/65, p. 9.
House Probe of Aerospace Corp. Begun, by Heather M. David, 5/10/65, p. 16.
Honor Without a Profit, Editorial by William J. Coughlin, 5/10/65, p. 46.
Aerospace May Lose Fees, 5/17/65, p. 11.
Tentative Curb on Aerospace Corp. Growth, 5/31/65, p. 9.
Senate Blocks Clause on Aerospace Corp., 6/28/65, p. 9.
AGENA
Agena Pact under Negotiation, 1/11/65, p. 11.
Gemini Agena Static Fired, 2/1/65, p. 8.
Modified Agenas Negotiated, 6/28/65,p. 10.
AIR DEFENSE
McNamara Stresses Air Defense System, 2/22/65, p.18.
New Detection System Told, 5/24/65, p. 10.
AIR FORCE
Air Force Negotiates New Engine Contracts, 3/1/65, p. 7.
Air Force Expands Range Dominance, by Donald L. Zylstra, 3/8/65, p. 33.
AF Gemini Role Still That of Banker, 3/29/65, p. 11.
Schriever Discounts Phoenix on F-111A, 3/29/65, p. 11.
AF Nears Test of Inflatable Station, 4/5/65, p. 16.
AF Spends $53 M for Boosters, 4/19/65, p. 10.
ALTAIR
ALTAIR Pact to Sylvania, 5/24/65, p. 11.
AMERICAN BROADCASTING COMPANY
ABC May Launch Satellite, 5/24/65, p. 10.
AMPLIFIERS
Norden Reports 40-W Microelectronic Amplifier, 3/22/65, p. 9.
ANTENNAS
Ionospheric Satellites Aiding Design of Long Antenna Systems, by Michael Getler, 1/4/65, p. 34.
Sensitive Radio-Astronomy Antennas Needed, 3/22/65, p. 23.
Phoenix Antenna by Electron Beam, 6/21/65, p. 9.
Unique Low-Noise Antenna Developed, by Charles D. LaFond, 6/21/65, p. 24.
ANTISUBMARINE WARFARE
Martell Cites ASW Needs, 3/15/65, p. 10.
Flying Submersible Found Practical, by Rex Pay, 3/15/65, p. 12.
New Role Seen for FLIP, 5/10/65, p. 10.
SUBROC Deployment Nears, 6/21/65, p. 10.
APOLLO
Apollo-X Money Switched to Apollo, 2/1/65, p. 7.
First Apollo Flight Hardware Funded, 2/15/65, p. 16.
$1 Million Plus for New Apollo Studies, 3/8/65, p. 9.
Additives to be Studied for Service Module, 3/8/65, p. 9.
Redesigned Apollo Shield Gets Tests, by Hal Taylor, 3/8/65, p. 13.
Apollo Weight Problems Discounted, 3/8/65, p. 14.
Apollo Fuel Cell Functions 1,000 Hours, 3/8/65, p. 18.
Apollo Checks Out in Drop Tests, 3/15/65, p. 7.
Apollo Crater Landing Seen Possible, by Willard E. Wilks, 3/29/65, p. 26.
NASA Plans Two Unmanned Apollo Shots, 4/19/65, p. 7.
Apollo Abort Test Set at White Sands, 4/19/65, p. 7.
New Directorate in Works for Apollo Extension, 4/26/65, p. 7.
MOL Experiments May Require Apollos, by Donald L. Zylstra, 4/26/65, p. 13.
Ship-Borne Apollo Radar Contract Let, 4/26/65, p. 21.
Apollo Suit Substantially Redesigned, by Heather M. David, 4/26/65, p. 26.
It's the Heat and the Humidity, 5/3/65, p. 9.
Apollo Range Studies Awarded, 5/10/65, p. 7.
Apollo Guidance Award, 5/10/65, p. 8.
Apollo Escape Test Set, 5/17/65, p. 12.
Apollo Launch Escape System Passes Test, 5/24/65, p. 10.
Apollo Plan Conceded to be 'Most Economical', 5/24/65, p. 17.
AF Pilots to Simulate Apollo Flight, by Heather M. David, 5/31/65, p. 84.
...And New Apollo Escape Test Approaches, 6/14/65, p. 9.
New Push for Extra Apollo Funding, 6/14/65, p. 21.
Fifth Apollo Abort Planned, 6/28/65, p. 10.
Mockups of Apollo Modules Face Long Test Series, 6/28/65, p. 38.
APOLLO EXTENSION SYSTEM
Apollo Extension Funds Set at $100 Million, 5/10/65, p. 7.
Three Top Contractors Planned for AES, 5/10/65, p. 13.
Plans for Apollo Extensions, 5/17/65, p. 30.
AES Program Definition to Begin, 6/7/65, p. 17.
NASA Ponders AES Integration Team, by Hal Taylor, 6/21/65, p. 14.
Two Centers, Two Contractors for AES, 6/28/65, p. 9.
APOLLO-X
Apollo-X Money Switched to Apollo, 2/1/65, p. 7.
MOL/Apollo-X Cooperation Pressed, 2/1/65, p. 7.
ARGO D-8
Argo D-8 Launched, 4/26/65, p. 10.
ARMY
Army Has Not Requested Nike-X Production, 1/4/65, p. 9.
Army Moves to Simplify Servicing, by Michael Getler, 1/25/65, p. 22.
Army Looks at Urban Shelter Siting, 2/8/65, p. 7.
Army Seeks Money for Hawk Spares, 3/1/65, p. 7.
Army Spells Out Its $253.7 Million Missile Request, 3/15/65, p. 13.
Army Interested in Laser Missile, 5/10/65, p. 7.
TOW, Shillelagh Face Showdown, by Donald L. Zylstra, 5/10/65, p. 14.
Army Prepares Sprint Pop-Up Flight, by Donald L. Zylstra, 5/17/65, p. 22.
ASROC
Substantial Asroc Procurement Planned, 3/1/65, p. 7.
ASSET
Asset Launched, 3/1/65, p. 8.
Asset Follow-on Considered, 3/1/65, p. 8.
Lost ASSET Bore Important Data, 3/1/65, p. 12.
ASTRONAUTS
Scientist/Astronauts Being Screened, 1/25/65, p. 7.
Scientist-Astronaut Candidates Trimmed, 3/22/65, p. 9.
NASA to Select Scientific Astronauts, 5/10/65, p. 7.
Astronauts Recoup Space Prestige, by Michael Getler, 6/28/65, p. 16.
ATHENA
Athena Launched, 1/25/65, p. 8.
Athena Launches to be Resumed, 4/12/65, p. 7.
Athena Launched, 6/28/65, p. 11.

ATLAS
Retired Missiles Join Unemployed, 1/11/65, p. 9.
Atlas Launched, 1/18/65, p. 11.
Atlas ICBM Launched, 2/1/65, p. 9.
Up-Rated Atlas Gets Partial Approval, 3/15/65, p. 7.
AFSC Gets Atlas Job at VAFB, 4/12/65, p. 10.
Uprated Atlas Confidence Vote Likely, by Hal Taylor, 4/12/65, p. 14.
Atlas Launch Vehicle to be Uprated, by Hal Taylor, 5/17/65, p. 14.
Atlas ICBM Blows Up, 6/7/65, p. 12.
Uprated Atlas Okayed, 6/21/65, p. 10.
ATLAS-CENTAUR
AC-6 Delayed by Blast, 3/8/65, p. 10.
Aftermath of Atlas-Centaur Failure, 3/15/65, p. 18.
ATLAS F
Atlas F ICBM Launched, 1/4/65, p. 11.
ATOMIC ENERGY COMMISSION
AEC Seeks to Aid Industry, 1/11/65, p. 9.
AEC Pact Awarded, 4/26/65, p. 10.
Finger Gets New AEC Post, 6/28/65, p. 10.
AVIATION/SPACE WRITERS ASSOCIATION (A/SWA)
A/SWA Elects Officers, 5/31/65, p. 12.

- B -

BATTERIES
High-Temperature Batteries Developed, 2/1/65, p. 21.
Lewis Battery Qualifies for Mars, 3/22/65, p. 9.
Douglas Improves Battery Materials, 4/26/65, p. 36.
Honeywell Building Ammonia Batteries, 5/3/65, p. 21.
BEACON EXPLORER
Beacon Explorer Delayed, 4/5/65, p. 9.
BECKMAN INSTRUMENTS
Beckman Defining Biomedical Tests for Air Force's MOL Flight Program, by Heather M. David, 1/4/65, p. 26.
BERYLLIUM
Beryllium Additives in Surveyor Retros, 2/1/65, p. 21.
Beryllium Motors Tested for Surveyor, 2/22/65, p. 23.
Beryllium Motor to Thiokol, 3/1/65, p. 9.
BIOSATELLITE
Biosatellite Hardware Nearly Ready, by Heather M. David, 2/22/65, p. 35
BLAST DETECTION
Seismic Array Refines Blast Detection, by William S. Beller, 2/22/65, p. 24.
BOEING COMPANY
Boeing Gets Bigger Saturn Job, 1/4/65, p. 10.
Boeing Steps Up Efforts In Cryogenics Research, by Robert Twiss, 1/11/65, p. 36.
Boeing Scientists Find Unexpected Abundance of 'Hot Spots' on the Moon, 1/18/65, p. 28.
Boeing to Test Lunar Orbiter Model in August, 2/15/65, p. 9.
NASA Pleased with Boeing Contract, 3/15,65, p. 7.
BOMARC B
Bomarc Shelf-Life Extended, 2/8/65, p. 7.
BOOSTERS
Boosters Pace Mars Life Detection, 1/18/65, p. 32
Booster Hearings Slated this Week, 1/25/65, p. 7.
Overseas Booster Market Opening, 3/8/65, p. 9.
NAA System Would Avoid Booster Bending, by Rex Pay, 4/5/65, p. 38.
Marshall Looks at Recoverable Boosters, 4/12/65, p. 7.
AF Spends $53 M for Boosters, 4/19/65, p. 10.
New Filament Winder Can Make 260-in. Cases, 6/21/65, p. 35.
BUDGET
Missile Funds Down, RDT&E Up in FY '66 Budget Request, 1/18/65, p. 16.
Nike-X: Chiefs-Yea, Mc-Nay, 1/25/65, p. 7.
Budget May Escape Heavy Cutting, 2/1/65, p. 7.
Industry May Receive $23.7 Billion, 2/1/65, p. 10.
Behind the Budget, Editorial by William J. Coughlin, 2/1/65, p. 46.
McNamara's Own MOL Request Trimmed, 2/15/65, p. 9.
Problems for the Hill, Editorial by William J. Coughlin, 2/22/65, p. 54.
Cost Key to Military Man-in-Space, 3/8/65, p. 12.
Soviet Moon Statements Give Congress Pause on Proposed NASA Budget Cut, by Heather M. David, 3/29/65, p. 22.
Nuclear Rocket Funding Expected in '67, 4/12/65, p. 7.
Senate Okays $15.28 Billion for DOD, 4/12/65, p. 15.
Body to Review Defense Cuts, 5/3/65, p. 11.
Breakdown of Added S.E. Asia Funding, 5/24/65, p. 9.
Now About That Appropriation..., 5/31/65, p. 9.
$6.44 Billion for RDT&E, 5/31/65, p. 11.
BULLPUP
Bullpup Earns Respect, 5/31/65, p. 11.
Air Force Likes Bullpup in Viet Nam, 6/7/65, p. 9.

- C -

C-1 ENGINE
Reaction Motors Division, Space Technology Labs Get C-1 Engine, 2/22/65, p. 11.
CALIFORNIA
Big Response on California Proposals, 1/4/65, p. 9.
Industry Studies California Problems, by Willard E. Wilks, 2/15/65, p. 24.
California Tops DOD List, 3/1/65, p. 8.
California Aerospace Firms Again Lead Nation in Space Agency Dollars, 6/21/65, p. 21.
CARBIDE WHISKERS
Carbide Whisker Production Boosted, 2/8/65, p. 13.
CBR WARFARE
Forthright CBR Policy Urged, by William S. Beller, 4/19/65, p. 27.
On the Use of Gas, Editorial by William J. Coughlin, 4/19/65, p. 46.
CELESTIAL SIMULATOR
Celestial Simulator is Major Advance, 3/15/65, p. 28.
CENTAUR
Centaur Ready for Critical Launching, by Hal Taylor, 3/1/65, p. 11.
GD Under Fire for Centaur, 4/5/65, p. 7.
Sixth Centaur Slips Further, 5/17/65, p. 9.
CHAPARRAL
Army Sees No Long Life for Chaparral, 3/15/65, p. 7.
Chaparral Pact Let, 3/22/65, p. 10.
CISLUNAR MDS
Decision Nearing on Cislunar MDS, 4/26/65, p. 14.
CITY DEFENSE
New A-ICBM City Defense Studied, by Michael Getler, 1/18/65, p. 13.
COMMITTEE ON SPACE RESEARCH (COSPAR)
COSPAR Meet Stresses Cooperation, by William S. Beller, 5/24/65, p. 16.
COMPUTERS
New Computer Aimed at Tactical Role, by Michael Getler, 2/1/65, p. 28.
White Sands Missile Range Consolidating Control Center, by Rex Pay, 2/1/65, p. 32.
New Computer Line Shown, 2/15/65, p. 13.
On-Line Computing Dominance Foreseen, by Rex Pay, 3/1/65, p. 32.

COMPUTERS (Cont.)
Analog, Digital Computer Combination Will Aid in MOL Mission Simulation, 3/15/65, p. 34.
Computer Has Speed, Compactness, by Charles D. LaFond, 3/22/65, p. 28.
Vast Expansion in Computer Use Seen, by Rex Pay, 4/26/65, p. 32.
Biomed Data Stored for Computer Use, 5/17/65, p. 27.
Univac Delivers A-NEW Computer, by Charles D. LaFond, 5/17/65, p. 60.
Firm Matches Computers with Jobs, by John F. Judge, 6/7/65, p. 24.
COMSAT CORPORATION
Comsat Controversy Heard, 1/11/65, p. 11.
Comsat International Agreement to Expand, 1/18/65, p. 9.
Arkansas Gets Comsat Facility, 1/18/65, p. 11.
Comsat Deadline Extended, 1/18/65, p. 11.
Comsat Corp. Pact to Hughes, 2/1/65, p. 8.
Radiation, Inc. Gets Comsat Award, 2/1/65, p. 8.
FCC Bars Comsat Pact, 2/8/65, p. 9.
AT&T to Get Comsat Pact, 2/22/65, p. 11.
Comsat Launcher Proposals, 3/1/65, p. 8.
DOD Comsat Launch Next Year, 3/1/65, p. 9.
Defense Communications Agency Rejects Comsat Bid, 3/1/65, p. 9.
Button New Comsat Exec., 3/1/65, p. 9.
Military Comsat Details Disclosed, 3/8/65, p. 18.
ITT Building Comsat Site, 4/5/65, p. 11.
A Bird in Hand, 4/12/65, p. 7.
Comsat Stations Approved, 5/17/65, p. 11.
FCC Awaits Comsat Reply, 6/21/65, p. 12.
CONDOR
NAA, Northrop Get Condor PDP, 3/15/65, p. 8.
COSMOS 52
Cosmos 52 Launched, 1/18/65, p. 11.
COSMOS 54
Cosmos 54 Launched, 3/1/65, p. 8.
COSMOS 55
Cosmos 55 Launched, 3/1/65, p. 8.
COSMOS 56
Cosmos 56 Launched, 3/1/65, p. 7.
COSMOS 57
Cosmos 57 Launched, 3/1/65, p. 8.
COSMOS 58
Cosmos 58 Launched, 3/8/65, p. 11.
COSMOS 59
Cosmos 59 Launched, 3/15/65, p. 11.
COSMOS 66
Cosmos 66 Launched, 5/17/65, p. 13.
CRAWLER
Leveling Trouble Plagues Crawler, by Sue Butler, 5/10/65, p. 17.
CRYOGENICS
Boeing Steps Up Efforts in Cryogenics Research, by Robert Twiss, 1/11/65, p. 36.
NBS Closes Low- Temp Scale Gap, 6/14/65, p. 25.
Superfluid Gyros Demonstrate Coastability, 6/14/65, p. 25.
CUBIC CORPORATION
Cubic Wins Target Locator Subcontract, 1/11/65, p. 9.

- D -

DEFENSE CONTRACTORS
Statute May Speed Refund Actions, 5/24/65, p. 13.
GAO Contracts Policy is Criticized, 5/31/65, p. 18.
DELTA
NASA to Control New Delta Pad, 1/25/65, p. 7.
Delta Goes West, 2/22/65, p. 11.
More Powerful Delta Introduced, by Sue Butler, 6/7/65, p. 21.
DEPARTMENT OF DEFENSE
DOD Plans Take-Over of Syncoms, 1/4/65, p. 9.
DOD and NASA to Continue MOL Studies, 1/4/65, p. 9.
General Accounting Office (GAO) Probes Procurement, 1/4/65, p. 10.
DOD to Operate Syncoms, 1/11/65, p. 10.
Security Directive Changed, 1/18/65, p. 11.
DOD Declares Transit Operational, 1/18/65, p. 14.
DOD's Comsat Will Be Very Rugged, 1/18/65, p. 16.
Military Construction Up, 2/15/65, p. 10.
DOD Looks At Missile-Carrying B-111, 2/22/65, p. 9.
DOD Will Cancel Bullpup B Buy, 2/22/65, p. 9.
California Tops DOD List, 3/1/65, p. 8.
DOD Comsat Launch Next Year, 3/1/65, p. 9.
NASA-DOD Industry Liaison Office Set Up, 3/8/65, p. 9.
CPFF Pacts Down 28%, 3/22/65, p. 12.
DOD Spending Decline Is About Over, by Michael Getler, 3/22/65, p. 17.
Lockheed Tops DOD Contractor List, 3/22/65, p. 21.
DOD Funds Get Tentative Trimming, 3/29/65, p. 11.
Senate Okays $15.28 Billion for DOD, 4/12/65, p. 15.
Joint Satellite Office Formed, 4/19/65, p. 9.
DOD Approves Pre-MOL Flights, by Donald L. Zylstra, 4/19/65, p. 12.
DOD-NASA Tracking Agreement Near, 5/3/65, p. 9.
DOD-GAO Friction Probed, 5/17/65, p. 11.
DOD Shifting T/M Bands, 5/24/65, p. 10.
DOD Steps Up Weather Satellite Work, by Donald L. Zylstra, 5/31/65, p. 16.
DOD Eyes Support Takeovers, 6/14/65, p. 10.
DOUGLAS AIRCRAFT CORPORATION
Douglas to Build More Thors, 4/12/65, p. 7.
Douglas Simulator Passes Two Tests, 4/12/65, p. 31.
Douglas Improves Battery Materials, 4/26/65, p. 36.
Douglas Tests Helium as Atmosphere, by Heather M. David, 6/28/65, p. 38.

- E -

EARLY BIRD
Early Bird Gets the ... Hold Signal, 3/8/65, p. 9.
Early Bird Due at Cape, 3/15/65, p. 8.
Early Bird Set for April 6, 4/5/65, p. 9.
A Bird in Hand, 4/12/65, p. 7.
Early Bird Operation May Be Speeded, by Suzanne Montgomery, 4/12/65, p. 12.
Early Bird On-Station, 4/19/65, p. 10.
Early Bird Inaugurated, 5/10/65, p. 11.
Early Bird Officially for Hire, 6/28/65, p. 9.
Early Bird Going Into Business, by Suzanne Montgomery, 6/28/65, p. 24.
EDITORIALS
The Threat, 1/4/65, p. 46.
Paper Bear, 1/11/65, p. 46.
The Merry-Go-Round, 1/18/65, p. 46.
Much Ado About Little, 1/25/65, p. 46.
Behind the Budget, 2/1/65, p. 46.
Onward and Upward, 2/8/65, p. 54.
Cost Reduction, 2/15/65, p. 54.
Problems for the Hill, 2/22/65, p. 54.
An Unsolicited Proposal, 3/1/65, p. 46.
Top-Level Space Support, 3/8/65, p. 46.
Two on the Aisle, 3/15/65, p. 46.
This High Man, 3/22/65, p. 46
The Week That Was, 3/29/65, p. 172.
Fun and Games, 4/5/65, p. 46.
Moon Struck, 4/12/65, p. 46.
On the Use of Gas, 4/19/65, p. 46.
Freedom of Information, 4/26/65, p. 46.
The European Myth, 5/3/65, p. 46.
Honor Without a Profit, 5/10/65, p. 46.

EDITORIALS (Cont.)
Soviet Strength, 5/17/65, p. 74.
Give Them The Tools, 5/24/65, p. 46.
ERC Looks to 1970's, 5/31/65, p. 94.
Judge and Jury, 6/7/65, p. 54.
On Walking and Talking, 6/14/65, p. 54.
An Expensive Failure, 6/21/65, p. 50.
How Not To Sell Abroad, 6/28/65, p. 50.
EDWARDS AIR FORCE BASE
Edwards to Get New Test Stand, 1/11/65, p. 10.
New Facility at Edwards, 4/26/65, p. 10.
ELECTRONICS
Large MM-Wave Dish Built by British, 1/4/65, p. 21.
Sperry Gyro Wins Big Marshall Contract...1/4/65, p. 21.
...And Sperry-Univac Wins Another, 1/4/65, p. 21.
Transfer-Molded Transistor Perfected, 1/4/65, p. 21.
Highly Advanced Telemetry Complex Going in at Eastern Test Range, by Charles D. LaFond, 1/4/65, p. 32.
Ionospheric Satellites Aiding Design of Long Antenna Systems, by Michael Getler, 1/4/65, p. 34.
Radar Exhibits Highest Known Resolution, 1/11/65, p. 18.
Sanders Wins Saturn V Display Contract, 1/11/65, p. 18.
Photomapper Cuts Measurement Time, 1/11/65, p. 18.
Simulated Nuclear Effects Examined, 1/11/65, p. 18.
GE Fuel Cell Studied for MOL, 1/11/65, p. 18.
Dish Deflection Monitor Developed, 1/11/65, p. 18.
Greatly Improved TWT Revealed, 1/18/65, p. 21.
New Scanning Device in Development, 1/18/65, p. 21.
Off-the-Shelf MORL Packages Seen, by Charles D. LaFond, 1/18/65, p. 22.
Programming an Air Force Computer Problem, 1/25/65, p. 17.
Scanning Laser May Lead to RAC Memory, 1/25/65, p. 17.
Navy Technical Research Ships Outfitted, 1/25/65, p. 17.
MSC Control Center Seen Ready, by Rex Pay, 1/25/65, p. 24.
High-Temperature Batteries Developed, 1/25/65, p. 21.
New Computer Aimed at Tactical Role, by Michael Getler, 2/1/65, p. 28.
WSMR Consolidating Control Center, by Rex Pay, 2/1/65, p. 32.
NOL Develops Nerve-Like Diode, by William S. Beller, 2/8/65, p. 14.
90-Gigacycle Radio Link Tested, 3/1/65, p. 17.
SNAP 19 Generators Delivered, 3/1/65, p. 17.
Raytheon to Produce Integrated Circuits, 3/1/65, p. 17.
Room Temperature CW Ruby Laser Developed, 3/1/65, p. 17.
Adjustable-Spectrum Lamp Developed, 3/1/65, p. 17.
On-Line Computing Dominance Foreseen, by Rex Pay, 3/1/65, p. 32.
RCA High-Speed Film Processor to Aid ASW, by Michael Getler, 3/1/65, p. 34.
Apollo Fuel Cell Functions 1,000 Hours, 3/8/65, p. 18.
Military Comsat Details Disclosed, 3/8/65, p. 18.
Ultra High Resolution Facsimile Proposed, 3/8/65, p. 18.
New Device Improves Laser "Q" Spoiling, 3/8/65, p. 18.
Big Lenses Support Nuclear Studies, 3/8/65, p. 18.
Radiation, Inc., Equipping Nimbus-B Satellite, by Michael Getler, 3/8/65, p. 35.
Laser to Study Rocket Exhausts, 3/15/65, p. 21.
Analog, Digital Computer Combination Will Aid in MOL Mission Simulation, 3/15/65, p. 34.
Sensitive Radio-Astronomy Antennas Needed, 3/22/65, p. 23.
Ranger Pinpoints DSIF Stations, 3/22/65, p. 23.
LEM to Use EL Descent-Speed Display, 3/22/65, p. 23.
Norden Presses Microelectronics Developments, 3/22/65, p. 23.
Computer Has Speed, Compactness, by Charles D. LaFond, 3/22/65, p. 28.
Tactical Needs Dictate Better Equipment, 3/29/65, p. 63.
Radar Altimeters to go on More Aircraft, 4/5/65, p. 21.
Saturn 1B Telemetry Shipped, 4/5/65, p. 21.
IC Lines Increase, Prices Decrease, by Michael Getler, 4/5/65, p. 32.
Laser Coherence Problems Reduced, by Charles D. LaFond, 4/5/65, p. 35.
Oceanography Promising Market for Microcircuit Manufacturers, 4/5/65, p. 37.
NAA System Would Avoid Booster Bending, by Rex Pay, 4/5/65, p. 38.
PRADOR Molecularized, 4/12/65, p. 21.
Automatic Sun Acquisition for Surveyor, 4/12/65, p. 21.
STINGS Proposed for MOLAB, 4/12/65, p. 21.
Laser Space Communication Problems Critical, 4/19/65, p. 21.
Poseidon Subsystem Needs Are Extensive, 4/19/65, p. 21.
Surveyor Camera Has Heaters Added, 4/19/65, p. 21.
New Frequency Stability Calibration at NBS, 4/26/65, p. 21.
TV Data Transmission to be Set Up Within NASA, 4/26/65, p. 21.
Ship-Borne Apollo Radar Contract Let, 4/26/65, p. 21.
Surveyor Power Deficit Reduced, 4/26/65, p. 21.
Vast Expansion in Computer Use Seen, by Rex Pay, 4/26/65, p. 32.
Radar, ECM Gains Seen With Sperry Delay Line, by Michael Getler, 4/26/65, p. 34.
Douglas Improves Battery Materials, 4/26/65, p. 36.
Twystron Promises High-Power Wide Band Width, 5/3/65, p. 21.
High-Powered S-Band Test Unit Developed, 5/3/65, p. 21.
New Field for Lumped-Circuit Ferrites, 5/3/65, p. 21.
Honeywell Building Ammonia Batteries, 5/3/65, p. 21.
TV Camera to Monitor Biodynamics, by Michael Getler, 5/3/65, p. 32.
Radar Sounder Will Test Echo Validity, by Rex Pay, 5/3/65, p. 33.
Miniature Frequency Synthesizer Among Goals of Expanding Microwave Firm, 5/3/65, p. 35.
Monolithic Circuit Has 612 Devices, 5/10/65, p. 18.
Low-Cost Video Recording Revealed, 5/17/65, p. 27.
Eclipse to Aid Ionospheric Study, 5/17/65, p. 27.
Ionospheric Ducting Employed Successfully, 5/17/65, p. 27.
Univac Delivers A-NEW Computer, by Charles D. LaFond, 5/17/65, p. 60.
Space Suitable for Long Component Life, 5/24/65, p. 21.
Advanced TM/MDI Proposed for 3-T's, by Charles D. LaFond, 5/24/65, p. 22.
ETR Antenna Gets Wide-Range Ability, by Rex Pay, 5/24/65, p. 26.
Practical Nanosecond Timer Developed, 5/24/65, p. 34.
Optical Imaging Unit Shown Feasible, by Charles D. LaFond, 6/7/65, p. 32.

ELECTRONICS (Cont.)
Battle Simulator Aids Navy Planning, 6/7/65, p. 41.
Improved Gravity Field Data Sought, 6/14/65, p. 25.
Unique Low-Noise Antenna Developed, by Charles D. LaFond, 6/21/65, p. 24.
NASA Intensifies Radiation Studies, by David A. Anderton, 6/21/65, p. 26.
UK-3 to Probe Lightning's RF Noise, 6/21/65, p. 30.
New Electric Power Inversion Method Proposed, 6/28/65, p. 21.
Lockheed Patents Radar Augmentor, 6/28/65, p. 21.
ELECTRONICS RESEARCH CENTER
Big Field Seeks First ERC Contract, 1/11/65, p. 9.
ERC Picks Up Contracting Momentum, 5/24/65, p. 9.
Goodwill for ERC in Boston, 5/31/65, p. 9.
ERC Looks to 1970's, Editorial by William J. Coughlin, 5/31/65, p. 94.
New Center Will Produce Prototype Hardware as Well as 'Paper R&D', 5/31/65, p. 24.
Research Mission Prompts New Thinking on Procurement Methods, 5/31/65, p. 29.
Guidance, Control Studies Under Way, 5/31/65, p. 32.
Component Technology Has 'Core' Role, 5/31/65, p. 37.
Systems Division Concerned With Electronics Analysis and Integration, 5/31/65, p. 41.
Instrumentation and Data Processing, 5/31/65, p. 45.
Electromagnetic Research Effort Aimed at Deep-Space Communications, 5/31/65, p. 51.
Space Guidance Work to be Isolated, 5/31/65, p. 57.
Systems Facility Has Broad Duties, 5/31/65, p. 58.
Computer Lab to Serve Entire Center, 5/31/65, p. 61.
Instrumentation Research, 5/31/65, p. 62.
Space Optics Lab, 5/31/65, p. 62.
Power Conditioning and Distribution Lab Will Seek Better Electrical Systems, 5/31/65, p. 67.
Microwave Radiation Laboratory to Cost $5.9 Million by FY '68, 5/31/65, p. 68.
Reliability Is Components Lab Mission, 5/31/65, p. 71.
Qualifications & Standards Lab Will Codify Environmental Testing Methods, 5/31/65, p. 72.
Control, Information Systems Lab to Cost $3.5 Million, Employ 180, 5/31/65, p. 74.
Electronics Research Center Telephone Directory, 5/31/65, p. 75.
EMULSIONS
Emulsions Win Growing Attention, by John F. Judge, 1/11/65, p. 34.
ENGINES
Noise Obscures Ion Engine, 4/12/65, p. 10.
Ion Engine Decision Due This Week, 4/19/65, p. 17.
EUROPEAN LAUNCHER DEVELOPMENT ORGANIZATION
Decisive ELDO Meeting Set for January 19, 1/18/65, p. 9.
EUROPEAN SPACE RESEARCH ORGANIZATION (ESRO)
ESRO To Buy Four Delta Vehicles, 5/10/65, p. 7.
EUROSPACE
Eurospace Tour Begins, 4/26/65, p. 9.
Rescue Mission Proposed to Eurospace, 5/3/65, p. 9.
Eurospace Debates Its Future, 5/3/65, p. 12.
Eurospace Recommendations, 5/3/65, p. 12.
The European Myth, Editorial by William J. Coughlin, 5/3/65, p. 46.
Eurospace Clings to Transporter Idea, 5/17/65, p. 18.
EXPLORER 26
Explorer 26 Launched, 1/4/65, p. 11.
EXPLORER 27
Explorer 27 Launched, 5/10/65, p. 10.
EXTRAVEHICULAR ACTIVITY (EVA)
GT-4 Crew to Wear EVA Spacesuits, by Jinx Mercer, 4/19/65, p. 24.
EVA Suit Now Official for GT-4, 4/26/65, p. 7.
Speculation on Leonov's EVA Performance, 6/14/65, p. 9.
EVA Team Formed for MOL, 6/14/65, p. 12.
Extravehicular Schedule May Quicken, 6/14/65, p. 14.
On Walking and Talking, Editorial by William J. Coughlin, 6/14/65, p. 54.

GEMINI
First Manned Flight of Gemini-Type Glider Called Proof of Feasibility, by Willard E. Wilks, 1/4/65, p. 31.
Manned Gemini Flight Set for April, 1/25/65, p. 13.
Gemini Agena Static Fired, 2/1/65, p. 8.
Gemini Contract Changed, 2/8/65, p. 8.
Gemini May Use New Re-entry Mode, 2/8/65, p. 11.
Gemini Launch Schedule is Accelerated, 3/15/65, p. 7.
Gemini Schedule in State of Flux, 3/29/65, p. 11.
AF Gemini Role Still That of Banker, 3/29/65, p. 11.
Concern Over Gemini Disbanding, 3/29/65, p. 11.
Four Manned Geminis Now Seen for 1965, 3/29/65, p. 13.
One Gemini Flight Per Astronaut, 3/29/65, p. 20.
Gemini Payload Increased, 5/17/65, p. 13.
McDonnell To Prepare Used Gemini for AF, 5/24/65, p. 9.
Aircraft to Step Up Gemini Communications, 6/14/65, p. 9.
Gemini Role Costs DOD Less, 6/14/65, p. 10.
Land Recovery Likely to be Used for Final Gemini, 6/14/65, p. 16.
GEMINI/TITAN-3
GT-3 Booster Awaits Its Capsule, 2/1/65, p. 7.
Problems Crop Up for GT-3, 3/1/65, p. 7.
GT-3 to Renew U. S. Manned Program, by Hal Taylor, 3/15/65, p. 16.
GT-3 Had Rendezvous Capability, 3/29/65, p. 13.
GEMINI-TITAN 4
MCC Will Direct GT-4, 4/19/65, p. 9.
GT-4 Crew To Wear EVA Spacesuits, by Jinx Mercer, 4/19/65, p. 24
EVA Suit Now Official for GT-4, 4/26/65, p. 7.
Extravehicular Exercise Due in GT-4, by Hal Taylor, 5/24/65, p. 14.
GT-4 Crucial to Manned Flight Plans, by Heather M. David, 5/24/65, p. 28.
EOS Meter To Study GT-4 Static Buildup, 5/31/65, p. 9.
White Plans To Leave GT-4 Capsule, by Jinx Mercer, 5/31/65, p. 15.
Several Firsts for Gemini-Titan 4, 6/7/65, p. 9.
Gemini 4 Launched, 6/7/65, p. 12.
White's 'Walk' Highlights Gemini 4, by Hal Taylor, 6/7/65, p. 14.
On Walking and Talking, Editorial by William J. Coughlin, 6/14/65, p. 54.
GT-4 Adds to Visual Acuity Debate, by Heather M. David, 6/21/65, p. 36.
GEMINI-TITAN II-6
GT-6 Calls for Third-Orbit Rendezvous, 4/12/65, p. 14.
GEMINI-TITAN 5
Cooper, Conrad to Pilot GT-5, 2/15/65, p. 13.
Outside Employment To Rise with GT-5, 5/31/65, p. 9.
GT-5 Will Test Rendezvous System, by Charles D. LaFond, 6/28/65, p. 22.
GENERAL ACCOUNTING OFFICE (GAO)
GAO Policies Hit, 6/7/65, p. 10.
Judge and Jury, Editorial by William J. Coughlin, 6/7/65, p. 54.
GENERAL ELECTRIC COMPANY
GE Fuel Cell Studied for MOL, 1/11/65, p. 18.
GE, LTV Gets NASA Pacts, 5/3/65, p. 11.
GLASS TANKS
Liners Being Developed for Glass Tanks, 1/4/65, p. 21.
GRUMMAN AIRCRAFT ENGINEERING CORPORATION
Grumman Wins Factors Study, 3/8/65, p. 10.

Lambda III-2 Launched, 2/8/65, p. 8.
LAMP
Adjustable - Spectrum Lamp Developed, 3/1/65, p. 17.
LANCE
No Decision Yet on Lance, 2/22/65, p. 9.
Lance Successfully Fired, 3/22/65, p. 10.
Lance Second Successful Test, 4/26/65, p. 10.
Lance Production Prospects Bright, 5/17/65, p. 9.
Lance May Get Go-Ahead This Year, 6/7/65, p. 9.
LASERS
Laser Communications Experiment Planned, 1/11/65, p. 9.
Scanning Laser May Lead to RAC Memory, 1/25/65, p. 17.
Room Temperature CW Ruby Laser Developed, 3/1/65, p. 17.
New Device Improves Laser "Q" Spoiling, 3/8/65, p. 18.
Laser to Study Rocket Exhausts, 3/15/65, p. 21.
Laser Coherence Problems Reduced, by Charles D. LaFond, 4/5/65, p. 35.
Laser Space Communication Problems Critical, 4/19/65, p. 21.
Army Interested in Laser Missile, 5/10/65, p. 7.
EOS Delivers Laser Beacon Prototype, 6/7/65, p. 9.
Anglo-U. S. Laser Weapon Study Weighed, 6/14/65, p. 9.
LeMAY, GENERAL
General McConnell to Succeed General LeMay, 1/4/65, p. 9.
LeMay Sees Soviet Space Threat, 4/5/65, p. 7.
LIBRARY
Milspec Library Opening, 6/14/65, p. 13.
LIFE SUPPORT
Biosatellite Hardware Nearly Ready, by Heather M. David, 2/22/65, p. 34.
GT-4 Crew to Wear EVA Spacesuits, by Jinx Mercer, 4/19/65, p. 24.
Apollo Suit Substantially Redesigned, by Heather M. David, 4/26/65, p. 26.
LEM System Readied for Checkout, by Heather M. David, 5/3/65, p. 22.
Sweet Potato May be Space Staple, 5/10/65, p. 18.
AF Studies Biochemical Control of CO_2, 5/10/65, p. 18.
Soft Suit Techniques Explored, 5/10/65, p. 18.
Thermal Manikin to Aid MSC, by Michael Getler, 5/17/65, p. 49.
AF Pilots To Simulate Apollo Flight, by Heather M. David, 5/31/65, p. 84.
Douglas Tests Helium as Atmosphere, by Heather M. David, 6/28/65, p. 38.
LING-TEMCO-VOUGHT, INC.
LTV Appears Pact Winner, 3/15/65, p. 8.
GE, LTV Gets NASA Pacts, 5/3/65, p. 11.
LITTLE JOE II
Uprating of Little Joe II Proposed, 5/3/65, p. 9.
Little Joe Gets More Engines, 5/10/65, p. 14.
Little Joe II Uprating Proposed, by Willard E. Wilks, 5/17/65, p. 44.
LOCKHEED AIRCRAFT CORPORATION
Lockheed, International Association of Machinists in Preventative Discussions, 1/11/65, p. 9.
156-in. Contracts Awarded, 2/1/65, p. 8.
Lockheed Propulsion Company Reveals Non-Metallic Hybrid Fuel Data, 2/1/65, p. 21.
Lockheed Tops DOD Contractor List, 3/22/65, p. 21.
LMSC In Hospital Work, 4/5/65, p. 9.
Lockheed Opens New Hypervelocity Tunnel, 6/7/65, p. 9.
Lockheed Unveils New Steering Concept, 6/28/65, p. 21.
LOW-ALTITUDE SUPERSONIC RESEARCH MISSILE (LASRM)
Proposed Missile Would Double SRAM Range, 4/26/65, p. 7.
LUNAR EXCURSION MODULE
LEM Ascent Engine Leaves Bell Aerosystems, 1/11/65, p. 10.
LEM Engine Decision Due Soon, 1/18/65, p. 10.
Space Technology Laboratories Wins Award for LEM Descent Engine, 2/1/65, p. 7.
Urey Sees Lunar Dust Supporting LEM, 2/15/65, p. 9.
Batteries Will Sub for LEM Fuel Cells, 3/8/65, p. 14.
LEM Radiation Shielding Negligible, 3/22/65, p. 23.
LEM to Use EL Descent-Speed Display, 3/22/65, p. 23.
LEM Ascent Engine Fired, 4/26/65, p. 10.
LEM System Readied for Checkout, by Heather M. David, 5/3/65, p. 22.
Test Rig Simulates LEM Landings, 5/17/65, p. 43.
Optical Rendezvous Now Favored for LEM, 6/14/65, p. 17.
LEM Helium Pressure Vessels Ordered, 6/14/65, p. 25.
LEM Rocket Chambers in Production, 6/21/65, p. 23.
Mockups of Apollo Modules Face Long Test Series, 6/28/65, p. 38.
LUNAR ROVER
Go-Ahead Given for Lunar Rover, 4/12/65, p. 7.

- M -

M-1
Slim Pickings, If Any, in Sight for M-1, 3/8/65, p. 9.
MAGNET
NASA Operates New Magnet, 5/31/65, p. 11.
MAGNETOHYDRODYNAMICS (MHD)
Re-entry Simulator Will Employ MHD, by Donald L. Zylstra, 4/5/65, p. 24.
MANNED ORBITING LABORATORY (MOL)
DOD and NASA To Continue MOL Studies, 1/4/65, p. 9.
Expandable Tunnel Studied for MOL, 1/4/65, p. 9.
Beckman Defining Biomedical Tests for Air Force's MOL Flight Program, by Heather M. David, 1/4/65, p. 26.
GE Fuel Cell Studied for MOL, 1/11/65, p. 18.
MOL/Apollo-X Cooperation Pressed, 2/1/65, p. 7.
Operable Fuel Cell in MOL Mockup, 2/1/65, p. 21.
Behind the Budget, Editorial by William J. Coughlin, 2/1/65, p. 46.
McNamara's Own MOL Request Trimmed, 2/15/65, p. 9.
McNamara Says MOL Awards Are Near, by Donald L. Zylstra, 3/1/65, p. 13.
MOL Design Studies Let, 3/8/65, p. 10.
MOL Awards Arouse Speculation, 3/15/65, p. 7.
Committee Asks LBJ for MOL Ruling, by Lawrence J. Curran, 4/12/65, p. 16.
Vandenberg Pad Set for MOL, 4/19/65, p. 7.

MANNED ORBITING LABORATORY (MOL) (Cont.)
MOL Approval May Come Next Month, 4/19/65, p. 7.
DOD Approved Pre-MOL Flights, by Donald L. Zylstra, 4/19/65, p. 12.
MOL To Borrow from Previous Programs, 4/26/65, p. 7.
DOD Maps Ground Support for MOL, 4/26/65, p. 7.
MOL Experiments May Require Apollos, by Donald L. Zylstra, 4/26/65, p. 13.
MOL Proposals Include New Concepts, 5/3/65, p. 15.
Navy Studies New MOL Project, 5/10/65, p. 7.
House Body Favors MOL, 5/10/65, p. 8.
MOL Report Lagging Slightly, 5/17/65, p. 9.
House Group Spurs Military Space, by Heather M. David, 6/7/65, p. 16.
Snapoodle Flight Model Considered for MOL Use, 6/7/65, p. 21.
EVA Team Formed for MOL, 6/14/65, p. 12.
McNamara Okay for MOL Program Awaited, 6/21/65, p. 9.
MANNED ORBITAL RESEARCH LABORATORY (MORL)
New Gyros Being Sought for MORL, by Michael Getler, 1/11/65, p. 31.
Off-the-Shelf MORL Packages Seen, by Charles D. LaFond, 1/18/65, p. 22.
MANNED SPACE FLIGHT CONTROL CENTER
MSC Control Center Seen Ready, by Rex Pay, 1/25/65, p. 24.
Moonshine and Earthshine at MSC, 2/22/65, p. 23.
Piland Due for New Post at MSC, 6/14/65, p. 9.
MARINER IV
Mariner 11.8 Million Miles Out, 2/1/65, p. 9.
Webb Says Mariner Winning Mars Race, by Hal Taylor, 2/15/65, p. 15.
Mariner Mars Power System Reliability, 3/8/65, p. 9.
Mariner Changes Revealed, 3/8/65, p. 10.
Mariner Past Half-Way Point, 3/22/65, p. 13.
Mariner Hit by Cosmic Dust, 4/26/65, p. 9.
Mariner to Use New Antenna, 5/31/65, p. 11.
Mariner Makes Last Correction, 6/21/65, p. 12.
Mariner Pix to be Withheld, 6/28/65, p. 10.
MARS
Martian Atmosphere Tied to Efficient Vehicle, 2/1/65, p. 21.
Mars Atmosphere Probe Proposed, by Robert Lindsey, 2/8/65, p. 13.
Webb Says Mariner Winning Mars Race, by Hal Taylor, 2/15/65, p. 15.
Infrared Balloon Telescopes, to look at Venus, Mars, 2/15/65, p. 23.
Experts at Odds Over Mars Goals, by Rex Pay, 2/22/65, p. 39.
NASA Still Considering Mars Capsule for 1969, 3/22/65, p. 36.
Martian Life-Support Environment Studied, 4/12/65, p. 21.
MARSHALL SPACE FLIGHT CENTER
MSFC Seeks Patents for ROMBUS (Reusable Orbital Module - Booster and Utility Shuttle) Concept, 1/11/65, p. 15.
MSFC Awards $58.3 Million, 3/15/65, p. 8.
Marshall Favored to Boss Saturn 1B/Centaur, 3/22/65, p. 9.
Marshall Sets Optical Satellite Studies, 4/19/65, p. 7.
MARTIN COMPANY
Martin Developing SV-5 Lifting Body, 3/8/65, p. 15.
MATERIALS
Plum Brook Test Tank Under Contract, 1/18/65, p. 21.
Explosives Encased by Electrodeposition, 1/18/65, p. 21.
Glass-Wound Deep Submergence Hull Complete, 1/18/65, p. 21.
Boron Fiber Composite in Labs, 1/25/65, p. 17.
New Tungsten Welding at Martin-Orlando, 1/25/65, p. 17.
Computerized X-ray Film Reader Perfected, 1/25/65, p. 17.
Metal Cracking Prediction Research Under Way, 1/25/65, p. 17.
Simulation Chambers to be Built at Connecticut Advanced Nuclear Engineering Lab (CANEL), 2/1/65, p. 21.
Mass Sensor Under Contract, 2/1/65, p. 21.
Vitreous Silica Fabric Marketed, 2/8/65, p. 9.
Smoke Suggested as Radiation Attenuator, 2/15/65, p. 23.
St. Venant's Principle Explained, 2/22/65, p. 23.
Film Evaporation Back in Running for Desalting, 2/22/65, p. 23.
Silanes Double Strength of Glass/Plastics, 3/1/65, p. 17.
Micro-thin Films Produced by Union Carbide, 3/11/65, p. 17.
Solar Stimulation Growing at JPL, 3/1/65, p. 17.
Pyrolitic-Impregnation Upgrades Graphite, 3/8/65, p. 18.
Bethlehem Rolls Titanium Sandwich, 3/8/65, p. 18.
Fast Curing Epoxy System Developed, 3/8/65, p. 18.
Giant-Spike Laser Material Perfected, 3/15/65, p. 21.
Fine Beryllium Wire Nears Production Status, 3/15/65, p. 21.
Cork-filled Ablative Shielding Marketed, 3/15/65, p. 21.
Firm Creates New Motor Case Process, by John F. Judge, 3/15/65, p. 22.
Crystal Valve Feasible for Color TV, by Rex Pay, 3/22/65, p. 35.
Sterilizable Batteries, Rockets at GE, 4/5/65, p. 21.
DOD Basic/Applied Research Coupling Initiated, 4/5/65, p. 21.
Gas Turbine Operates with Gas Lubrication, 4/5/65, p. 21.
Lightweight H2 Generator Developed, 4/12/65, p. 21.
Machinable Carbide Offers Improved Gyro, 4/12/65, p. 21.
Wound Tungsten Offers New Shapes, by John F. Judge, 4/12/65, p. 27.
Polymer Resembles Solid Fuel and Hot Metals, 4/19/65, p. 21.
Structural Test Facility Under Construction, 4/19/65, p. 21.
Chemical Work Engine Perfected, 4/19/65, p. 21.
Shape Retaining Expandables Perfected, 4/26/65, p. 21.
Synthetic Emeralds Created at NOL, 4/26/65, p. 21.
Thin Film X-ray In Situ Analysis Possible, 4/26/65, p. 21.
Self-Propelled Hand Tool Being Developed, 4/26/65, p. 21.
Tape-Wrapping Technique Refined, by John F. Judge, 4/26/65, p. 22.
Simple Lubricant, Bearing Test Developed, 5/3/65, p. 21.
New Logic Methods from Magnetic Material, 5/3/65, p. 21.
Maraging Motor Case Passes Fifth Test, 5/3/65, p. 21.
Acoustic Generator Installed at NAA, 5/10/65, p. 18.
Be-Cu Alloy Cuts Machining Costs, 5/17/65, p. 27.
Temperature-Resistant Quartz Produced, by John F. Judge, 5/17/65, p. 55.
Chemical Color Coating is Promising, 5/17/65, p. 56.
Water Glass for Space Foams, 5/24/65, p. 21.
Projectile Speed Record Smashed, 5/24/65, p. 21.
Vacuum Gauge Range Extended, 5/24/65, p. 21.

MATERIALS (Cont.)
'Pyrofuze' Finds Ordnance Application, by John F. Judge, 5/24/65, p. 32.
New Silicone Rubber Foams Detailed, by John F. Judge, 5/31/65, p. 81.
Vacuum Cold Welding May Go Commercial, 6/7/65, p. 23.
Metal Blistering in Space Studied, 6/7/65, p. 23.
Goddard Paints Show Commercial Promise, 6/7/65, p. 23.
Dry Ice Feasible for Spacecraft Insulation, 6/7/65, p. 23.
Metals Vaporization Data Compiled, 6/7/65, p. 23.
New Hi-Temp Insulation Developed, 6/7/65, p. 23.
Metal-Film-Lubricant Interest Grows, 6/14/65, p. 25.
Light-Gas Gun Tops Mach 40, 6/14/65, p. 25.
Purest Salt in History at Westinghouse, 6/14/65, p. 25.
Corrosion Hampers AF Development, by John F. Judge, 6/14/65, p. 26.
Ceramics and Graphite Information - A Plea for Help, 6/14/65, p. 27.
Wind Tunnels May Simulate Nuclear Blast, 6/21/65, p. 23.
Martin's FLAME Facility Open to Industry, 6/21/65, p. 23.
House Group Okays AF Materials Facility, 6/21/65, p. 23.
O_2 Generated From Lunar Rock Types, 6/21/65, p. 23.
Saturn Titanium Use May Grow, 6/28/65, p. 10.
Ruthenium Aids in Cooling Hydrogen, 6/28/65, p. 21.
Aerojet Aims to Synthesize Helium Difluoride, 6/28/65, p. 21.
Impact Ripples Studied for Meteoroid Protection, 6/28/65, p. 21.
MAULER
Mauler Decision is Still Pending, 2/22/65, p. 9.
Mauler Decision Is Due This Week, 6/7/65, p. 9.
British Offer Cheap Fair-Weather Mauler, 6/14/65, p. 9.
McCONNELL, GENERAL
General McConnell to Succeed Gen. LeMay, 1/4/65, p. 9.
McConnell on Space Defense, 5/10/65, p. 9.
METEOROIDS
Meteoroid Program May Be Expanded, 5/31/65, p. 17.
MIDAS
Schriever Reveals MIDAS Advances, 5/24/65, p. 12.
MILITARY 'COMMON MARKET'
Military 'Common Market' Sought, 6/7/65, p. 17.
MINUTEMAN
Last 50 Minuteman Silos Set for Bid, 1/4/65, p. 9.
Minuteman ICBM Launched, 1/4/65, p. 11.
Oldest Minuteman Motor Passes Test, 1/11/65, p. 9.
Firing Set From MM Site, 1/11/65, p. 10.
Use Foreseen for Surplus Minutemen, 1/25/65, p. 34.
Minuteman ICBM Launched, 2/1/65, p. 9.
Minuteman Launch Controllers' Blood Changes, 2/22/65, p. 23.
Overland ICBM Shot Set, 3/1/65, p. 8.
Minuteman ICBM Launched, 3/8/65, p. 11.
Minuteman ICBM Launched, 3/22/65, p. 10.
NASA Ponders Minuteman Boosters, 4/26/65, p. 7.
Two Minuteman ICBM's Launched, 4/26/65, p. 10.
Minuteman II Launched, 5/17/65, p. 13.
Minuteman II Emplacement Cost To Top $1 Billion, 5/24/65, p. 12.
Minuteman To Stay Until '70's, 5/31/65, p. 12.
MM Wing To Go Operational, 6/7/65, p. 13.
Minuteman Launched, 6/28/65, p. 11.
MISSILE SILO
Missile Silos Tested, 1/11/65, p. 10.
Silo Model Gets Blast, 5/24/65, p. 11.
MM-WAVE DISH
Large MM-wave Dish Built by British, 1/4/65, p. 21.
MOBILE LUNAR LABORATORY
MOLAB Model Shown, 1/4/65, p. 13.
MOHOLE PROJECT
Honeywell Aiding Mohole Drilling, k/11/65, p. 9.
MOLNIYA I
Molniya Launched, 5/3/65, p. 11.
Molniya Orbit Altered, 6/7/65, p. 12.
MOON
Boeing Scientists Find Unexpected Abundance of 'Hot Spots' on the Moon, 1/18/65, p. 28.
Ranger Photos Indicate Lunar Rubble, 2/8/65, p. 7.
Two Rangers to Probe Dark Maria, 2/8/65, p. 12.
Meteors Formed Lunar Surface?, 2/15/65, p. 23.
Better Cratering Extrapolation Seen, 3/1/65, p. 23.
'Moon Glow' Will Aid in Mapping, 3/1/65, p. 25.
The Lunar Photometric Function, 3/1/65, p. 26.
It's Still the Moon Before '70 - If, 3/8/65, p. 9.
LBJ Defers Lunar Proposal, 3/29/65, p. 11.
Soviet Moon Statements Give Congress Pause on Proposed NASA Budget Cuts, by Heather M. David, 3/29/65, p. 22.
Ranger Program Exceeds Expectations, by Willard E. Wilks, 4/5/65, p. 28.
Rangers Confirm Moon Landing Areas, by Willard E. Wilks, 4/12/65, p. 22.
Moon Struck, Editorial by William J. Coughlin, 4/12/65, p. 46.
Lunar Surface Controversy Rekindled, by William S. Beller, 4/26/65, p. 16.
Moon Landing May Be On First Trip, 5/10/65, p. 7.
Rock Samples Match Lunar Properties, by John F. Judge, 5/10/65, p. 31.
IR Studies Show Moon Surface Makeup Varies, 5/17/65, p. 41.
Lunik Cloud of Dust Discounted, 5/24/65, p. 9.
Moon Landing in Three Years?, 6/14/65, p. 9.
Moon Seen Rich in Organic Matter, 6/28/65, p. 9.
MOTORS
Impulse-Controllable Solid Demonstrated, 1/18/65, p. 9.
DC Motors Stage Comeback in Space, by William S. Beller, 2/1/65, p. 22.
Insulation Liner for 260-in. Motor, 3/1/65, p. 27.
156-in. Firing Scores Major Success, by John F. Judge, 3/8/65, p. 16.
120-in. Motor Fired, 3/22/65, p. 10.
ARC Tests New Motor, 3/22/65, p. 10.
Wafer Motor Restarted in Altitude Test, 3/22/65, p. 23.
Glass Motor Cases Flush-Cleaned, 3/22/65, p. 23.
260-in. Tests May Cost $2.2 Million, 3/29/65, p. 11.
Adobe Motor Tests Due, 4/12/65, p. 10.
One Motor for Sparrow, Shrike, 4/19/65, p. 9.
A-G Fires Sterilized Motor, 4/19/65, p. 9.
Thiokol 260-in. Motor Ruptures in Hydrotest, 4/19/65, p. 14.
Report on 260-in. Rupture Due Soon, 5/3/65, p. 9.
AF Keen on 156-in. Strap-ons, 5/3/65, p. 10.
Thiokol Fires Wafer Motor, 5/10/65, p. 9.
Facility Refines Motor Testing, 5/10/65, p. 32.
Three-Grain Solid Pulse Motor Tested, 5/17/65, p. 52.
Report Due on 260-in. Case Failure, 5/24/65, p. 9.
Algol Stopped in One-eighth Second, 5/31/65, p. 9.
Solids Effort Cancelled, 6/14/65, p. 10.
Aerojet Big Solid Loaded, 6/21/65, p. 10.
SRAM-Type Motor Fired, 6/28/65, p. 10.
Major Subcontractors to UTC on 120-in. Motor Program, 6/28/65, p. 15.

NASA To Select Scientific Astronauts, 5/10/65, p. 7.
NASA Confirms Recruiting Office Cutback, 5/17/65, p. 9.
$90 Million NASA Request Cut Seen, by Heather M. David, 5/17/65, p. 15.
Senators Unhappy With NASA Forecast, 5/24/65, p. 9.
New NASA Deputy Moving In, 5/31/65, p. 9.
NASA Operates New Magnet, 5/31/65, p. 11.
House Group Spurs Military Space, by Heather M. David, 6/7/65, p. 16.
Technology Program Value Questioned, 6/14/65, p. 9.
Webb Undecided As To Supplemental...But Wants Full $5.19 Billion, 6/21/65, p. 9.
NASA Bill Due Final Action, 6/21/65, p. 10.
NASA Ponders AES Integration Team, by Hal Taylor, 6/21/65, p. 14.
California Aerospace Firms Again Lead Nation in Space Agency Dollars, 6/21/65, p. 21.
NAVY
Navy Plans First Buy of Improved SAM, 3/1/65, p. 7
Navy Seeks Mark 46 Second Source, 4/19/65, p. 7.
Navy To Build Huge Blast Tube, 4/26/65, p. 17.
Bullpup Earns Respect, 5/31/65, p. 11.
Battle Simulator Aids Navy Planning, 6/7/65, p. 41.
NERVA
NERVA Hot-Flow Tests Planned in FY '66, 2/22/65, p. 9.
Voltage Hike Blamed in NERVA Shutdown, 5/3/65, p. 9.
NERVA Reactor Re-started, 5/31/65, p. 11.
NEW PRODUCT OF THE YEAR
Leak Detector Wins M/R Competition, 4/19/65, p. 32.
NIKE-X
Army Has Not Requested Nike-X Production, 1/4/65, p. 9.
Study Aids Case for Nike-X, by James Trainor, 1/4/65, p. 12.
The Threat; Editorial by William J. Coughlin, 1/4/65, p. 46.
Nike-X: Chiefs - Yea, Mc-Nay, 1/25/65, p. 7.
Army Seeks Hardened Nike-X Study, 4/12/65, p. 7.
Nike-X Viewed as Anti-Sub Missile, 5/3/65, p. 9.
Nike-X Called Top Priority, 5/10/65, p. 8.
Chinese Nuclear Threat Pushes Studies of Nike-X Options, 5/31/65, p. 17.
Army Official Backs Limited Nike-X, 6/7/65, p. 9.
NIMBUS
General Accounting Office Charges Nimbus Error, 2/8/65, p. 9.
SNAP 19 Generators Delivered, 3/1/65, p. 17.
Radiation, Inc., Equipping Nimbus-B Satellite, by Michael Getler, 3/8/65, p. 35.
NITEHAWK
Four Nitehawk Rockets Launched, 6/7/65, p. 12.
Nitehawk Provides Reliability at Low Cost, by Rex Pay, 6/7/65, p. 27.
NORTH AMERICAN AVIATION
NAA Easily Repeats as Top Contractor, 2/15/65, p. 18.
North American Gets ATGAR Contract, 3/15/65, p. 7.
NAA Putting Flying Lab on Sabreliner, 3/22/65, p. 9.
NAA System Would Avoid Booster Bending, by Rex Pay, 4/5/65, p. 38.
NAA Studies Astronaut Monitoring Sans Sensors, 4/12/65, p. 16.
Autonetics Building Three-Ounce Converter, 5/31/65, p. 9.

NORTH AMERICAN AVIATION (Cont.)
NAA Again Tops NASA List, 6/14/65, p. 10.
NORTHROP CORPORATION
Northrop Offers Improved Sampler, 4/19/65, p. 7.
NOZZLES
Subliming Nozzles Delivered by Emerson, 1/4/65, p. 21.
World's Biggest Nozzle Delivered, 1/11/65, p. 17.
Phoebus Nozzle Sought, 2/8/65, p. 8.
Submerged Nozzle Pintle Valve Tested, 3/22/65, p. 23.
Aerojet To Get Phoebus Nozzle Award, 4/5/65, p. 7.
NUCLEAR ROCKET
Nuclear Rocket Tests Urged, 6/14/65, p. 10.

OCEANOGRAPHY
Westinghouse Sets Up Undersea Service, 1/4/65, p. 9.
Legislation to Aid Oceanographers, 1/25/65, p. 7.
National Oceanographic Council Proposed, 2/8/65, p. 7.
$130 M Sought for Sea Study, 3/1/65, p. 8.
Big Payoffs Seen From Oceanography, 3/8/65, p. 9.
Oceanography Promising Market for Microcircuit Manufacturers, 4/5/65, p. 37.
Oceanography Spending Seen Soaring, by William S. Beller, 6/21/65, p. 15.
OPTICAL TECHNOLOGY SATELLITE (OTS)
Proposed Optical Satellite Described, by Michael Getler, 3/29/65, p. 30.
Marshall Sets Optical Satellite Studies, 4/19/65, p. 7.
Optical Satellite RFP's Going to 100+ Firms, 5/31/65, p. 9.
OPTICS
Large Mirror Ordered by Kitt Peak, 1/11/65, p. 18.
Twinkle, Twinkle Little Satellite, 1/11/65, p. 18.
ALOTS Successfully Ground Tested, 4/12/65, p. 21.
Bimat Film Used for Ranger IX Photos, 4/12/65, p. 21.
Optical Imaging Unit Shown Feasible, by Charles D. LaFond, 6/7/65, p. 32.
Optical Rendezvous Now Favored for LEM, 6/14/65, p. 17.
300-in.-dia. Liquid 'Orbiting Eye' Proposed, by Rex Pay, 6/14/65, p. 43.
Lockheed Patents Radar Augmentor, 6/28/65, p. 21.
ORBITING ASTRONOMICAL OBSERVATORY (OAO)
OAO Pact Pending, 4/19/65, p. 10.
ORBITING SOLAR OBSERVATORY (OSO)
OSO-B2 Launch Set, 1/25/65, p. 8.
OSO Satellite Launched, 2/8/65, p. 8.
Four AOSO's (Advanced Orbiting Solar Observatory) Now Provided For, 2/15/65, p. 9.
NASA Probes OSO Failures, 2/15/65, p. 10.
ORION PROJECT
NASA Rejects Project Orion Proposals, 1/4/65, p. 9.
Orion Research May Be Resumed, by Willard E. Wilks, 5/3/65, p. 16.

- P -

PARIS AIR SHOW
U. S. To Take Part in Paris Show, 4/5/65, p. 7.
Paris Air Show Touted as Biggest in World, 5/31/65, p. 9.
Paris Show to Stress Space, 6/7/65, p. 12.
Europeans Show New Tactical Missiles, by Michael Getler, 6/21/65, p. 16.
An Expensive Failure, Editorial by William J. Coughlin, 6/21/65, p. 50.
Astronauts Recoup Space Prestige, by Michael Getler, 6/28/65, p. 16.
PATENTS
Patent Waiver Policy Change Deferred, 6/14/65, p. 9.
PEGASUS
Hope Grows for Follow-on Pegasus, by Michael Getler, 2/22/65, p. 14.
Pegasus Reports on Punctures, 3/1/65, p. 7.
Pegasus B Due at Cape This Week, 4/12/65, p. 7.
PERSHING
Pershing Tactical Missile Launched, 2/8/65, p. 8.
Pershing Procurements Nears an End, 2/22/65, p. 9.
Pershing Launched, 2/22/65, p. 10.
Pershing Successfully Fired, 6/7/65, p. 12.
PHOEBUS
Phoebus Nozzle Sought, 2/8/65, p. 8.
Aerojet To Get Phoebus Nozzle Award, 4/5/65, p. 7.
June 25 Set For First Hot Test of Phoebus, 6/21/65, p. 14.
PHOENIX
Phoenix Holding Up F-111 Development, 3/1/65, p. 13.
Phoenix Flight Tests Set, 3/15/65, p. 10.
Alleged Phoenix Delays Discounted, 3/22/65, p. 9.
Phoenix To Give Navy New Air-to-Air Muscle, by Donald L. Zylstra, 3/29/65, p. 34.
Phoenix Antenna by Electron Beam, 6/21/65, p. 9.
PHOTOGRAPHY
RCA High-Speed Film Processor To Aid ASW, by Michael Getler, 3/1/65, p. 34.
PIONEER
Pioneer To Cost About $20.5 Million, 2/15/65, p. 9.
PLASMA TORCHES
Plasma Torches Simulate Stellar Spectrum, 1/4/65, p. 21.
POLARIS
U. S. Destructive Power Underscored, 1/18/65, p. 15.
Test Stand Aids Polaris Mission, by Charles D. LaFond, 2/15/65, p. 34.
Polaris A-2 Fired, 3/15/65, p. 11.
Polaris Subs' Commercial Use Studied, 3/22/65, p. 9.
U. K. Polaris Program on Schedule, by Robert Lindsey, 6/14/65, p. 22.
POLARIS A-3
Polaris A-3 Launched, 1/4/65, p. 11, 1/18/65, p. 11.
Polaris A-3 Launched, 2/1/65, p. 9.
Polaris A-3 Launched, 2/15/65, p. 12.
Polaris A-3 Launched, 2/22/65, p. 10.
Two Polaris A-3 Missiles Launched, 3/22/65, p. 10.
Polaris A-3 Launched, 4/5/65, p. 10.
POLARIS B-3
Polaris B-3 Program Moving Ahead, 1/11/65, p. 13.
Polaris B-3 PDP Due Soon, 1/18/65, p. 10.
Poseidon a 'Further Developed' B-3, 1/25/65, p. 12.
POODLE
Poodle Funding Squeezed, 4/5/65, p. 9.
POSEIDON
Poseidon Answer to Soviets?, 1/25/65, p. 7.
Poseidon To Feed Minuteman II, 1/25/65, p. 7.
Poseidon Has $2 Billion Price Tag, by James Trainor, 1/25/65, p. 10.
Poseidon a 'Further Developed' B-3, 1/25/65, p. 12.
Poseidon Deadline Slips a Fortnight, 2/8/65, p. 7.
Poseidon RFP Issued, 2/15/65, p. 10.
New Team Forms for Poseidon, 3/1/65, p. 7.
Poseidon PDP Awarded, 3/8/65, p. 10.
Hercules to Manage Poseidon, 3/15/65, p. 8.
LMSC Gets $17 M for Poseidon, 4/19/65, p. 10.
Poseidon Subsystem Needs Are Extensive, 4/19/65, p. 21.
McNamara Voices Support for Poseidon, 5/10/65, p. 7.
Poseidon Pact Made, 6/21/65, p. 12.

PROPULSION
3-Axis Control Ion Engine in Development, 1/18/65, p. 21.
Breakthrough Foreseen in Early '70's, 2/15/65, p. 32.
Full-Scale Hot-Gas Value Test Slated, 2/22/65, p. 23.
Beryllium Motors Tested for Surveyor, 2/22/65, p. 23.
Lockheed Propulsion Co. Big Solids R&D Leads to Interest In Volume-Limited Motor Production, by John F. Judge, 3/1/65, p. 28.
EOS Advances Ion Engine Art, by John F. Judge, 4/5/65, p. 22.
Electrical Propulsion - A Summary, 4/5/65, p. 23.
Navy Propellant Monitoring Technique Employs Gauges Embedded in Grains, by John F. Judge, 4/19/65, p. 22.
Million-Pound-Thrust Hybrid Proposed, by John F. Judge, 5/3/65, p. 26.
Lunar Orbiter Engine Tested, 5/10/65, p. 18.
Aeronutronic Demonstrates Restartable Solid, 5/17/65, p. 27.
Fuel Cell Operates for 1,300 Hours, 5/24/65, p. 9.
Hydrogen Ramjet Facility Disclosed, 5/24/65, p. 21.
Algol Stopped in One-eighth Second, 5/31/65, p. 9.
Lockheed Activates New Nitroplastisol Facility, 6/7/65, p. 23.
LEM Helium Pressure Vessels Ordered, 6/14/65, p. 25.
Marquardt To Study Composite-Cycle Power, 6/21/65, p. 9.
LEM Rocket Chambers in Production, 6/21/65, p. 23.
Lockheed Unveils New Steering Concept, 6/28/65, p. 21.
Multi-Pulse Rocket Tests Completed, 6/28/65, p. 21.
Radford is Largest Ordnance Plant, by John F. Judge, 6/28/65, p. 29.

RADAR
Radar Exhibits Highest Known Resolution, 1/11/65, p. 18.
Radar Phase-Out is Planned, 2/22/65, p. 10.
Radar Altimeters To Go On More Aircraft, 4/5/65, p. 21.
Ship-Borne Apollo Radar Contract Let, 4/26/65, p. 21.
Radar, ECM Gains Seen With Sperry Delay Line, by Michael Getler, 4/26/65, p. 34.
Radar Sounder Will Test Echo Validity, by Rex Pay, 5/3/65, p. 33.
Overland Radar Solution Offered, 5/10/65, p. 35.
New Re-entry Radar Sought, 5/31/65, p. 12.
Lockheed Patents Radar Augmentor, 6/28/65, p. 21.
RADIATION
Lab To Simulate Radiation Environment, by William S. Beller, 3/22/65, p. 24.
Air Force Launching Cosmis Radiation Experiment, 6/14/65, p. 12.
NASA Intensifies Radiation Studies, by David A. Anderton, 6/21/65, p. 26.
Five Kinds of Radio Frequency Radiation Identified, 6/21/65, p. 26.
RANGER
Ranger Program Exceeds Expectations, by Willard E. Wilks, 4/5/65, p. 28.
Rangers Confirm Moon Landing Areas, by Willard E. Wilks, 4/12/65, p. 22.
Moon Struck, Editorial by William J. Coughlin, 4/12/65, p. 46.
RANGER VII
Ranger Photos Distributed, 2/15/65, p. 10.
Better Range Pix Possible, 3/1/65, p. 8.
Ranger Pictures Suggest Comet Impact, 3/22/65, p. 23.
Ranger Pinpoints DSIF Stations, 3/22/65, p. 23.
RANGER VIII
Ranger VIII Launched, 2/22/65, p. 12.
An Unsolicited Proposal, Editorial by William J. Coughlin, 3/1/65, p. 46.
RANGER IX
Ranger Spacecraft Arrives at Cape, 31/1/65, p. 7.
Ranger IX May Shoot Surveyor Site, by Willard E. Wilks, 3/1/65, p. 18.
Ranger IX Seeks Lunar Craters, 3/22/65, p. 10.
Bimat Film Used for Ranger IX Photos, 4/12/65, p. 21.
RAYTHEON COMPANY
Raytheon Gets Sonar Contract, 1/25/65, p. 9.
Raytheon Now Taking Over Amana, 2/1/65, p. 7.
Raytheon To Produce Integrated Circuits, 3/1/65, p. 17.
Raytheon Continues Acquisition Program, by Michael Getler, 5/10/65, p. 35.
RECOVERY
New Parachute Recovery Mode for S-1B, 4/26/65, p. 7.
Parafoil Shows Potential for Spacecraft Recovery, by Rex Pay, 5/10/65, p. 38.
REDEYE
Redeye Procurement to Get Under Way, 2/22/65, p. 9.
Aussies Leaning Toward Redeye, 5/31/65, p. 9.
RE-ENTRY
Scaling Laws Set by Advanced Ballistic Re-entry Systems (ABRES) Program, by James Trainor, 2/8/65, p. 10.
Gemini May Use New Re-entry Mode, 2/8/65, p. 11.
GE-Developed Elastomeric Re-entry Shielding Bids for Mars Mission Role, by John F. Judge, 2/15/65, p. 40.
Development of Re-entry Vehicle Forecast, 3/1/65, p. 7.
Inverted Gun to Simulate Re-entry, 3/8/65, p. 18.
Re-entry Simulator Will Employ MHD, by Donald L. Zylstra, 4/5/65, p. 24.
Second Project Fire Launch Set, 4/26/65, p. 15.
Two Firms Win Lifting-Body Awards, 5/3/65, p. 9.
On-Board Velocity Meter Tested, 5/31/65, p. 76.
REPUBLIC AVIATION CORPORATION
Republic Gets New Exec., 1/25/65, p. 8.
Republic Loses $8.8 M, 3/22/65, p. 12.
RESEARCH AND DEVELOPMENT
Cost Cut Sought for R&D, 1/11/65, p. 16.
The Merry-Go-Round, Editorial by William J. Coughlin, 1/18/65, p. 46.
Space Agency Centralized R&D Planning, 1/25/65, p. 7.
'Nose' May Sniff Out Systems Problems, by Russell Hawkes, 2/1/65, p. 26.
Non-Profit Basic Research Gets $24.8 Million, 4/26/65, p. 7.
Still More Hearings on Research Impact, 4/26/65, p. 7.
Air Force R&T Scope Outlined, 6/21/65, p. 23.
RETALIATION
Retaliatory Ability Reaffirmed, 5/3/65, p. 10.
ROADRUNNER
Roadrunner Successfully Tested, 5/24/65, p. 10.
ROMBUS (REUSABLE ORBITAL MODULE-BOOSTER AND UTILITY SHUTTLE)
Marshall Space Flight Center, Seeks Patents for ROMBUS Concept, 1/11/65, p. 15.
ROTATION
Study May Ease Rotation Problems, by Heather M. David, 1/18/65, p. 26.

SATURN IB
Saturn Production Rate Grows, 2/22/65, p. 10.
Saturn Uprating Considered, 2/22/65, p. 10.
Saturn IB Telemetry Shipped, 4/5/65, p. 21.
MSFC Gets Saturn IB/Centaur Job, 4/19/65, p. 14.
Test S-IVB Stage En Route to Cape, 6/14/65, p. 9.
First S-IVB Flight Stage Nears Cape Trip, 6/21/65, p. 9.
Complex To Be Beefed Up for Saturn IB, 6/21/65, p. 9.
SATURN V
Boeing Gets Bigger Saturn Job, 1/4/65, p. 10.
Sanders Wins Saturn V Display Contract, 1/11/65, p. 18.
North American Aviation Gets $61.1 M More for Saturn II, 2/8/65, p. 9.
Saturn V First Stage Test Due June 1, 2/8/65, p. 11.
Saturn V S-II Stage Completed, 2/15/65, p. 10.
Saturn Production Rate Grows, 2/22/65, p. 10.
F-1 Fired on Saturn, 4/19/65, p. 9.
S-1C Testing Slips Ahead of Schedule, 4/26/65, p. 7.
Leveling Trouble Plagues Crawler, by Sue Butler, 5/10/65, p. 17.
Full S-1C Firing Due Soon, 6/14/65, p. 10.
Saturn Titanium Use May Grow, 6/28/65, p. 10.
SATURN SA-9
Saturn SA-9 Fired, 2/22/65, p. 10.
SEACAT
British Show Off Seacat at Pt. Mugu, 5/24/65, p. 9.
SEA SPARROW
Sea Sparrow Eyed for Point Defense, by Donald L. Zylstra, 3/22/65, p. 14.
SECOR
Army Has Three SECOR Satellites in Orbit, 4/5/65, p. 12.
SHILLELAGH
First Big Shillelagh Buy Is Set, 2/22/65, p. 9.
Philco Gets Shillelagh Award, 5/24/65, p. 11.
Competition Seen on Shillelagh, 6/7/65, p. 9.
SHORT-RANGE ATTACK MISSILE
Industry to Get SRAM RFP's Soon, by James Trainor, 1/11/65, p. 12.
SRAM Will Afford Stand-Off Capability, 1/25/65, p. 12.
SRAM Funding Comes to $34 Million, 2/1/65, p. 7.
SRAM Definition Approval Coming Soon, 3/22/65, p. 9.
SRAM Proposals Due April 30, 4/19/65, p. 12.
SRAM-Type Motor Fired, 6/28/65, p. 10.
SRAM Funding Slashed by House, 6/28/65, p. 18.
SMALL BUSINESS
Small Business Pacts Continue Decline, by Heather M. David, 1/11/65, p. 16.
SNAP
SNAP 8 Support Gathers Momentum, by Heather M. David, 2/15/65, p. 17.
SNAP 10A Set For Flight, 3/22/65, p. 10.
Finger Reiterates SNAP Economy, 3/29/65, p. 11.
Three Companies Bid on SNAP-25, 4/5/65, p. 7.
Noise Obscures Ion Engine, 4/12/65, p. 10.
SNAP 10A Test Exceeds Expectations, 4/12/65, p. 13.
SNAP Systems Get New Emphasis, by Hal Taylor, 4/19/65, p. 16.
SNAP 50 Program Request Reduced $10 M, 5/17/65, p. 15.
SNAP 25 Prime Chosen, 6/21/65, p. 10.
SNAP Systems Feel Budget Knife, 6/28/65, p. 18.
SOLAR CONSTANT
Solar Constant Error May Be ±5%, 2/22/65, p. 23.
SOLAR ECLIPSE
New Zealand Site for Eclipse Probes, 5/3/65, p. 9.
Eclipse To Aid Ionospheric Study, 5/17/65, p. 27.
SOLAR EXPLORER
Solar Explorer Planned, 5/24/65, p. 10.
SOLAR FLARES
Mariner Solar Flare Data Still in Study, 2/15/65, p. 9.
SOLID PROPELLANTS
Solids Progress Predicted, 2/8/65, p. 8.
Congress May Restore Solids Funds, by Heather M. David, 2/8/65, p. 12.
SOLRAD
Navy Satellite Charts Solar Activity, 1/18/65, p. 15.
SPACE ELECTRIC ROCKET TEST (SERT)
SERT Effort to Evaluate Thrusters, 2/22/65, p. 9.
SPACE MEDICINE
Underwater Zero-G Studied, 1/4/65, p. 21.
Unique Urine Collector Developed, 1/4/65, p. 21.
Solar Distillery Under Development, 1/18/65, p. 21.
Space Motion Simulator, 1/18/65, p. 21.
Physiological Effects of Magnetism Studied, 1/25/65, p. 17.
Deep Space Physiological Sensors Sought, 1/25/65, p. 17.
X-rays Examine Human Mobility, 2/1/65, p. 21.
Biomed Experiments Discussed, 2/15/65, p. 12.
Prototype O_2 Recovery Unit Tested, 2/15/65, p. 23.
Animal Decompression Studies Continue, 2/15/65, p. 23.
Trampoline Aids Weightlessness Study, 2/15/65, p. 23.
Opossums Proposed for Orbital Tests, 2/15/65, p. 23.
Minuteman Launch Controllers' Blood Changes, 2/22/65, p. 23.
Biomedical Function Simulation Pressed, 3/1/65, p. 17.
Inflight Biochem Solution Analysis Needed, 3/15/65, p. 21.
Confinement Tests Pressed by Air Force, 3/15/65, p. 21.
Drugs Studied to Aid Astronauts, 3/15/65, p. 33.
AF Drafting Own Animal Satellites, by Heather M. David, 3/22/65, p. 32.
Ground Suit Bio-Instrumentation Contracted, 4/5/65, p. 21.
Air Force Seeking Data on Toxicity of Materials For Use in Space Cabins, by Heather M. David, 4/12/65, p. 28.
New Drinking Water Source Unearthed, 4/19/65, p. 21.
AF on Liquid Diets, 4/19/65, p. 21.
Bioinstrumentation Methods Studied, 4/19/65, p. 21.
Otolith Function Researched, 5/10/65, p. 18.
TM Implants Successful, 5/10/65, p. 18.
Rare Or Well Done?, 5/17/65, p. 27.
Biomed Data Stored For Computer Use, 5/17/65, p. 27.
Psycho-Physiological Tests Standardized, 5/17/65, p. 27.
New O_2 Source Studied for Space Cabins, 5/17/65, p. 27.
Long Term Diet Formula Tested, 5/24/65, p. 21.
Cell Radiation Sensors Developed, 5/24/65, p. 21.
Interior Astronaut Suit Designed, 5/24/65, p. 21.
GT-4 Crucial to Manned Flight Plans, by Heather M. David, 5/24/65, p. 28.
Effects of Voskhod Flights Revealed, 5/24/65, p. 31.
Manakin Tests Spacesuit Capabilities, 6/14/65, p. 25.
Effects of Cabin Atmosphere and Spacecraft Accelerations To Be Studied, by Heather M. David, 6/14/65, p. 40.

SPACE MEDICINE (Cont.)
Self-powered Sensors Investigated, 6/21/65, p. 23.
Hypoxia vs. Deconditioning Studied, 6/21/65, p. 23.
GT-4 Adds to Visual Acuity Debate, by Heather M. David, 6/21/65, p. 36.
Bollerud New Space Medicine Deputy Head, 6/28/65, p. 9.
Air Force Tests Toothpaste, 6/28/65, p. 21.
SPACE SCIENCE
Solar Magnetic Fields Join Earth's, 5/3/65, p. 21.
Astronomical Time Standard Error Observed, 5/10/65, p. 18.
SPACE SUIT
Goodrich Takes Over Suit Development, 3/15/65, p. 7.
GT-4 Crew To Wear EVA Spacesuits, by Jinx Mercer, 4/19/65, p. 24.
EVA Suit Now Official for GT-4, 4/26/65, p. 7.
International Latex Still in Suit Work, 4/26/65, p. 14.
Apollo Suit Substantially Redesigned, by Heather M. David, 4/26/65, p. 26.
Soft Suit Techniques Explored, 5/10/65, p. 18.
SPACE SUPPORT
Navy Sees Promise In Infrared Thermography for Solid Case Checking, by William S. Beller, 1/4/65, p. 22.
First Manned Flight of Gemini-Type Glider Called Proof of Feasibility, by Willard E. Wilks, 1/4/65, p. 31.
Facility Tests Solids in Environmental Conditions, 1/18/65, p. 31.
'Nose' May Sniff Out Systems Problems, by Russell Hawkes, 2/1/65, p. 26.
Nondestructive Testing Fundamental To Advanced Materials Development, by John F. Judge, 2/22/65, p. 27.
MILA Construction Delays Cramping Space Agency's Launch Schedulers, by Michael Getler, 3/15/65, p. 26.
Celestial Simulator is Major Advance, 3/15/65, p. 28.
Lab To Simulate Radiation Environment, by William S. Beller, 3/22/65, p. 24.
Facility Refines Motor Testing, 5/10/65, p. 32.
Parafoil Shows Potential for Spacecraft Recovery, by Rex Pay, 5/10/65, p. 38.
Test Rig Simulates LEM Landings, 5/17/65, p. 43.
New Filament Winder Can Make 260-in. Cases, 6/21/65, p. 35.
SPACE SYSTEMS
New Gyros Being Sought for MORL, by Michael Getler, 1/11/65, p. 31.
Probe Designed to Give Better Horizon Definition, by Charles D. LaFond, 1/25/65, p. 31.
NASA Still Considering Mars Capsule for 1969, 3/22/65, p. 36.
Benchmark's in Space Can Aid Mapping, by William S. Beller, 4/12/65, p. 33.
Plans Told for Manned Observatories, by William S. Beller, 5/17/65, p. 28.
300-in.-dia. Liquid 'Orbiting Eye' Proposed, by Rex Pay, 6/14/65, p. 43.
Assembly-in-Orbit Plan Promising, by Willard E. Wilks, 6/21/65, p. 38.
GT-5 Will Test Rendezvous System, by Charles D. LaFond, 6/28/65, p. 22.
SPACE TECHNOLOGY AND RE-ENTRY TEST (START)
START Program Set, 2/1/65, p. 8.
Advanced Ballistic Re-entry Systems (ABRES) Input to START, 2/8/65, p. 7.
SPARROW III
Sparrow III Procurement To End This Year, 2/22/65, p. 9.
SPRINT
Sprint Launched, 4/5/65, p. 10.
First Sprint Flight Gratifies DOD, 4/5/65, p. 12.
Army Prepares Sprint Pop-up Flight, by Donald L. Zylstra, 5/17/65, p. 22.
STABILITY
Prescription for Stability Proposed, 1/18/65, p. 17.
STEAM
Steam For Space, 1/4/65, p. 21.
STELLAR ACQUISITION FEASIBILITY FLIGHT (STAFF)
STAFF Launched, 6/21/65, p. 12.
STINGS
First STINGS Flight Due This Week, 4/21/65, p. 7.
STINGS Proposed for MOLAB, 4/12/65, p. 21.
First STINGS Test Aborted, 4/19/65, p. 9.
SUBMARINE MISSILES
French Testing Submarine Missile Parts, 1/11/65, p. 9.
SURVEILLANCE
Navy Seeking Surveillance System, 2/15/65, p. 9.
SURVEYOR
Surveyor Engine in Final Development, by John F. Judge, 1/25/65, p. 18.
Beryllium Motors Tested for Surveyor, 2/22/65, p. 23.
Ranger IX May Shoot Surveyor Site, by Willard E. Wilks, 3/1/65, p. 18.
Surveyor's Condition Said To Be Improving, 3/15/65, p. 21.
Automatic Sun Acquisition for Surveyor, 4/12/65, p. 21.
Surveyor Camera Has Heaters Added, 4/19/65, p. 21.
Surveyor Power Deficit Reduced, 4/26/65, p. 21.
SYNCOM
DOD Plans Take-Over of Syncoms, 1/4/65, p. 9.
DOD To Operate Syncoms, 1/11/65, p. 10.
NASA Repositions Syncom II, 3/8/65, p. 10.

- T -

T-33
T-33 Jet Simulates M-2 Flight, 5/24/65, p. 21.
TACTICAL WARFARE & TECHNOLOGY
Army Presses for Better Field Systems, 3/29/65, p. 77.
Big Emphasis Is On Airlift, Sealift, 3/29/65, p. 117.
Forward Protection Called Major Deficiency, 3/29/65, p. 101
Guide to Key Procurement Contacts, 3/29/65, p. 143
Materials Development Is Crucial To All Areas Of Military Weaponry, 3/29/65, p. 54.
Miles and Miles of Boron, 3/29/65, p. 55.
Military Objectives Spur Work, 3/29/65, p. 83.
Myriad R&D Problems Await Solution, 3/29/65, p. 40.
Non-Destructive Warfare, 3/29/65, p. 58.
Proposed Changes in Lab Management Stir Debate, 3/29/65, p. 43.
R&D Funding Continues To Increase, 3/29/65, p. 125.
Small-Caliber Weapons Get New Look, 3/29/65, p. 94.
Systems Planners Stress Modularity, 3/29/65, p. 109.
Tactical Needs Dictate Better Equipment, 3/29/65, p. 63.
TALOS
Talos to be 'Contracted-Out', 1/11/65, p. 10.
TARGET LOCATOR
Cubic Wins Target Locator Subcontract, 1/11/65, p. 9.

TELEMETRY
Highly Advanced Telemetry Complex Going In At Eastern Test Range, by Charles D. LaFond, 1/4/65, p. 32.
Advanced TM/MDI Proposed for 3-T's, by Charles D. LaFond, 5/24/65, p. 22.
ETR Antenna Gets Wide-Range Ability, by Rex Pay, 5/24/65, p. 26.
TEST FACILITIES
Facility Tests Solids in Environmental Conditions, 1/18/65, p. 31.
How To Build A Test Facility With No Money, 1/25/65, p. 28.
Test Stand Aids Polaris Mission, by Charles D. LaFond, 2/15/65, p. 34.
WTR Facility Will Cost $5 M, 3/1/65, p. 9.
GD Finishes Unique All-stage Test Plant, 3/29/65, p. 11.
Structural Test Facility Under Construction, 4/19/65, p. 21.
New Facility at Edwards, 4/26/65, p. 10.
THIOKOL CHEMICAL CORPORATION
Thiokol Reported Winner of Two 156-in. Contracts, 1/25/65, p. 15.
156-in. Contracts Awarded, 2/1/65, p. 8.
Thiokol Fires Wafer Motor, 5/10/65, p. 9.
Solids Effort Cancelled, 6/14/65, p. 10.
THOR-AGENA
Thor-Agena Used To Launch Satellites, 1/4/65, p. 11.
Thor-Agena Launched, 3/15/65, p. 11.
Thor-Agena Launched, 4/5/65, p. 10.
THROTTLING
Students Find New Throttling Method, by William S. Beller, 1/25/65, p. 27.
TIROS
TIROS Launches To Be Moved to Western Test Range, by Hal Taylor, 1/25/65, p. 15.
TIROS X Set for Launch, 6/28/65, p. 11.
TIROS OPERATIONAL SATELLITE (TOS)
Construction Starts on First TOS Station, 3/22/65, p. 9.
TITAN I
Retired Missiles Join Unemployed, 1/11/65, p. 9.
Titan I ICBM Launched, 1/25/65, p. 8.
Titan I ICBM Launched, 3/15/65, p. 11.
TITAN III
Titan Complex Set for Vandenberg, 2/1/65, p. 7.
Air Force Seeks Titan III Money, 3/8/65, p. 10.
Limit Likely on Titan Payload Hammerheading, 6/28/65, p. 9.
Titan Seen Offering Dramatic Savings, 6/28/65, p. 9.
Titan Upstages Saturn-Centaur, 6/28/65, p. 10.
TITAN III-A
Titan III-A Accuracy Champ, 1/18/65, p. 10.
Titan III-A Hits Near-Perfect Orbit, by Donald L. Zylstra, 2/22/65, p. 21.
A Gathering of Titans, 4/5/65, p. 10.
Titan III-A Launched, 5/17/65, p. 13.
Spent Titan Parts Return, 5/24/65, p. 10.
Titan III-A Launched, 6/28/65, p. 11.
TITAN III-C
United Technology Center Investigates Recovering Titan Strap-ons, 3/8/65, p. 9.
Seamless Titan III-C Segment, 4/19/65, p. 9.
House Seeks Titan III-C for Surveyor, 5/10/65, p. 7.
Seven-Segment Strap-Ons Eyed for Titan III-C, 5/31/65, p. 9.
Pad Built Up for Titan III-C Shot, 6/21/65, p. 18.
Titan III-C Also Managerial Success, 6/28/65, p. 14.
TITAN III-X
Titan III-X To Fly in Summer of 1966, 2/15/65, p. 18.
West Coast Launches for Titan III-X/Agena, 2/22/65, p. 9.
Martin Gets $16 Million for Titan III-X, 4/26/65, p. 13.
UTC Studying Smaller Strap-ons for Titan III-X, 6/28/65, p. 9.
TITAN/GEMINI-2
Titan/Gemini-2 Launched, 1/25/65, p. 8.
TRANSIT
Transit: What Wasn't Said, 1/18/65, p. 9.
DOD Declares Transit Operational, 1/18/65, p. 14.
TRANSPORTATION SYSTEMS
Ground Conveyance Under Scrutiny, by Michael Getler, 5/24/65, p. 24.
TRW SPACE TECHNOLOGY LABORATORIES
STL Wins Award for LEM Descent Engine, 2/1/65, p. 7.
Hawker Siddeley, TRW Swapping Space Data, 2/8/65, p. 7.
TRW STL, Matra Forming Paris Firm, 6/21/65, p. 9.

UNION OF SOVIET SOCIALIST REPUBLICS
USSR Space Cooperation is Uncertain, 1/4/65, p. 9.
Fatal Soviet Launches Reported, 1/25/65, p. 7.
Soviets Leading in Fusion Research, by Warren Burkett, 1/25/65, p. 14.
Soviets Committed to Earth Orbit?, 2/8/65, p. 7.
Soviet Union Launched "New Type" Space Booster, 2/8/65, p. 8.
Soviets Fail to Cooperate, 2/22/65, p. 9.
Russians Researching Space Welding, 3/15/65, p. 21.
LeMay Sees Soviet Space Threat, 4/5/65, p. 7.
Five-Man Soviet Shot Upcoming?, 4/19/65, p. 7.
Soviets to Display Vostok at Paris, 5/10/65, p. 7.
Russians Report Mars Probe Failure, by Hal Taylor, 5/10/65, p. 12.
Soviets Candid in Space Money Matters, 5/17/65, p. 9.
Lunik V Fails, but Emphasizes Gap, 5/17/65, p. 14.
New Rockets Unveiled in Moscow, 5/17/65, p. 16.
Soviet Strength, Editorial by William J. Coughlin, 5/17/65, p. 74.
New Pictures of Elektron and Cosmos, 5/24/65, p. 15.
Effects of Voskhod Flights Revealed, 5/24/65, p. 31.
Voskhod May Be Shown Off in U. S., 6/14/65, p. 9.
Luna Launched, 6/14/65, p. 13.
Soviet Moon Probe Fails, 6/21/65, p. 10.
UNITED PRESS INTERNATIONAL (UPI)
UPI Wants Own Satellites, 6/7/65, p. 13.
UNITED STATES SPACE PROGRAM
Congress Awaits LBJ Space Message, by Hal Taylor, 1/11/65, p. 14.
On-Again, Off-Again Space Message, 1/18/65, p. 9.
UNITED TECHNOLOGY CENTER
Million-lb.-Thrust Solid Successfully Tested by UTC For Fourth Time in Eight Weeks, 1/4/65, p. 26.
